### STUDENTS AND TEACHERS CAN STEP OUT OF CLASSROOM AT OSU'S STONE LAB

Stone Laboratory, OSU's Island Campus on Lake Erie, offers 30 college-credit science courses each summer for undergraduate and graduate students, advanced high school students, and educators. Classes include 1-week, 3 credit introductory courses and 5-week, 5 credit upper-level courses, all transferable to most colleges and universities. But the best part is that each course gets you out in the field or out on the lake, learning science up close from some of the country's leading researchers. How's that for hands on? Visit their web site at <http://stonelab.osu.edu> for more information.
